

## Covidien Acquires Reverse Medical Corporation

*Generates Opportunity to Leverage Existing Vascular Technologies and Customer Relationships to Drive Increased Market Penetration*

DUBLIN, Ireland--(BUSINESS WIRE)--Aug. 22, 2014-- [Covidien](#) plc (NYSE:COV) today announced it has acquired [Reverse Medical Corporation](#), a privately held medical device company focused on expanding the management of vascular disease. Financial terms of the transaction were not disclosed.

"Covidien is focused on technologies that deliver improved patient care through clinically relevant and economically valuable solutions," said Brett Wall, president, Neurovascular, Covidien. "The acquisition of Reverse Medical is complementary to our existing portfolio and will allow us to leverage existing vascular technologies to compete in the worldwide vascular embolization market, which is growing at a double digit rate."

Covidien will report the Reverse Medical business as part of its Neurovascular product line in the Medical Devices segment. Annualized dilution is not expected to be material.

Reverse Medical is currently commercializing its vascular embolization plugs, MVP® Micro Vascular Plug System and UNO™ Neurovascular Embolization System. MVP and UNO are self-expanding vessel occlusion devices, which close blood vessels for vascular embolization. A number of clinical applications require occlusion of the vasculature to rapidly, effectively and safely provide blood flow cessation.

Other Reverse Medical products include ReVerse® Microcatheter for device delivery and Barrel™ Vascular Reconstruction Device (VRD), a self-expandable bifurcation aneurysm bridging device. All the devices have received CE Mark approval and are commercially available in Europe. Additionally, MVP-3 and MVP-5 are 510(k) cleared in the U.S.

### About Covidien

Covidien is a global health care leader that understands the challenges faced by providers and their patients and works to address them with innovative medical technology solutions and patient care products. Inspired by patients and caregivers, Covidien's team of dedicated professionals is privileged to help save and improve lives around the world. ### COVIDIEN CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

*Statements contained in this communication that refer to Covidien's estimated or anticipated future results or other non-historical facts are forward-looking statements that reflect Covidien's current perspective of existing trends and information as of the date of this communication. Forward-looking statements generally will be accompanied by words such as "anticipate," "believe," "plan," "could," "should," "estimate," "expect," "forecast," "outlook," "guidance," "intend," "may," "might," "will," "possible," "potential," "predict," "project," or other similar words, phrases or expressions. It is important to note that Covidien's goals and expectations are not predictions of actual performance. Actual results may differ materially from Covidien's current expectations depending upon a number of factors affecting Covidien's business. These factors include, among others,*

*competitive factors and market conditions in the industry in which Covidien operates; Covidien's ability to obtain regulatory approval and customer acceptance of new products, and continued customer acceptance of its existing products; and the other risks identified in Covidien's periodic filings including its Annual Report on Form 10-K for the fiscal year ended September 27, 2013, and from time to time in Covidien's other investor communications. We caution you that the foregoing list of important factors is not exclusive. In addition, in light of these risks and uncertainties, the matters referred to in Covidien's forward-looking statements may not occur. Covidien undertakes no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise, except as may be required by law.*
