

## Medtronic Proposes Proxy Access

DUBLIN - March 17, 2016 - Medtronic plc (NYSE: MDT) will put forth a board proposal supporting the adoption of proxy access in its 2016 proxy statement. Proxy access would allow long-term shareholders the ability to nominate their own director candidates for election to the Board of Directors and have such director candidates included on the company's proxy card, along with any candidates nominated by the Board of Directors.

Pending shareholder approval, the board proposal to amend the company's Articles of Association would permit a shareholder, or a group of up to 20 shareholders, to nominate up to 20% of the Board of Directors; provided the nominating shareholder(s) and their nominees satisfy eligibility requirements specified in the company's Articles of Association. Nominating shareholders would be required to demonstrate economic ownership of at least 3% of Medtronic's outstanding voting shares continuously for at least 3 years.

"Our Board is pleased to propose the adoption of proxy access for our long term shareholders," said Omar Ishrak, chairman and CEO of Medtronic. "This decision reflects our Board's commitment to ensure strong corporate governance policies that align the interests of Medtronic and our investors."

Medtronic's board proposal will be voted on at the company's Annual General Meeting of Shareholders in December 2016. Additional details on the proxy access proposal will be provided in Medtronic's 2016 Proxy Statement, which the company intends to file with the SEC in the third calendar quarter of 2016.
